

Application of Nursing Process and Nursing Diagnosis: An Interactive Text for Diagnostic Reasoning, 5th Edition

A fun, interactive way to begin mastering the nursing process! Chapters on each step of the nursing process present a step-by-step, problem-solving approach that helps students understand the meaning and language of nursing. Your students will actively seek solutions rather than passively assimilate knowledge. Four patient vignettes unfold throughout the text to illustrate each step of the nursing process and to enable your students to learn through doing. Practice activities, work pages, and case studies provide opportunities to examine and scrutinize patient situations, consider alternatives, and evaluate outcomes. Final chapters include Documentation, Evaluation Checklist, Interactive Care Plan Worksheets, and a fifth vignette to ensure your students understand and can apply what they have just learned. Daviss Care Planning & Nursing Diagnosis Resource Center Your resource for nursing diagnosis, care planning and concept maps, concept map generator, care plan template, interactive and printable assessment tool, and more! Daviss Care Planning & Nursing Diagnosis Resource Center Your resource for nursing diagnosis, care planning and concept maps, concept map generator, care plan template, interactive and printable assessment tool, and more! <http://davisplus.fadavis.com/daviscareplans/index.cfm>
