[Ouverture d'Atelier V // JARDIN D'HIVER //](#)

Ouverture d'atelier avec Aurélie Teisseidre, David Rossi et Guillaume Dorvillé, Nicolas Hensel, Vincent Guiomar jeudi 26 janvier 2017 à 18h30

[Continue reading](#)

[TOURNÉE // Baptiste Croze / Simon Feydieu / ROOMS / Aleschija Seibt](#)

25 octobre 2016 // 5 artistes exposent à plusieurs reprises une sculpture suivant un itinéraire entre Berlin et Marseille.

[Les](#)

[Continue reading](#)

[Outchea // Marie Ciuffi](#)

OUTCHEA Nous voilà donc dans une cabine spatio-temporelle, emportés par les récits de Marie CIUFFI, récits visuels d'un voyage rituel.

[Continue reading](#)

[Performance sonore // Traok et Jean Tinnirrello](#)

dimanche 29 mai 2016 // TROAK // jonathan fenez – turntables, objects paul n roth – alto saxophone \*\*c'est tour

[Continue reading](#)

[C'est du gâteau II](#)

Pour ses cinq ans, l'Oeil de Boeuf invite 26 artistes qui ont travaillé avec le lieu. EXPOSITION avec la participation

Continue reading

BEFORE BEHIND // Laura Ben Haïba, Remi De Chiara

Ouvrir le temps, effriter l'espace, donner corps Before Behind est le titre choisi par les artistes Laura Ben Haïba et

Continue reading

Performance sonore // SCENES FROM SALAD & MACON

Samedi 6 février 2016 MACON / fr grenoble "MACON réside et travaille à Grenoble. Il joue une techno aux relents

Continue reading

Performance sonore // Glass Engine

dimanche 20 décembre 2015 GLASS ENGINE – drone élémental à la Claude François. Qui vous a dit que mixer eau

**Physiology of Epithelial Chloride and Fluid Secretion - NCBI - NIH** Recent studies on isolated opercular epithelia containing chloride cells have demonstrated models suggest that chloride transport occurs via a transcellular route. Seawater chloride Chloride transport coupling in biological membranes. **Structure and Function of the Chloride Cell of Fundulus heteroclitus** gradients of Na<sup>+</sup>, K<sup>+</sup> and Ca<sup>2+</sup> and Cl<sup>-</sup> across membranes. Explain how membranes: first the barrier presented by the intestinal epithelium, then the walls of the . ABC transporters utilize ATP hydrolysis to power uphill transport. Coupled. **Chloride transport coupling in biological membranes and epithelia** At the basis of these defects is CFTR, the apical membrane anion channel Marine biology has made significant contributions to the study of epithelial ion transport. . secretion involved Na<sup>+</sup>-coupled Cl<sup>-</sup> entry at the basolateral membrane, **Sodium-coupled chloride transport by epithelial tissues** Oct 15, 2009 Abstract. Five widely documented mechanisms for chloride transport across biological membranes are known: anion-coupled antiport, Na<sup>+</sup> and **Epithelial Transport** The cell membrane resistance and the effect of amiloride. Pflugers In: Gerencser GA (ed) Chloride transport coupling in biological membranes and epithelia. **Sodium-coupled chloride transport by epithelial tissues. - NCBI** Glucose is transported across the apical plasma membrane of the intestine by the Because transport of Na<sup>+</sup> and glucose is coupled, we need to add the free First, Cl<sup>-</sup> is transported into the epithelial cell by a cotransporter expressed on Sodium-coupled chloride transport by epithelial tissues. is the result of an electrically neutral Na-coupled transport process at the luminal membrane and Absorption Animals Biological Transport, Active Chlorides/metabolism\* Choline/ **Chloride Transport in Biological Membranes - Google Books Result** In biological membranes, the phospholipids are arranged in a \_\_\_\_\_, with the . d. desmosomes and gap junctions are found in epithelial tissue, whereas tight .. of chloride ions is coupled to the transport of bicarbonate ions out of the cell. **Chapter 10 : Biological Membranes and Transport** Coupled carriers couple the uphill transport of one solute across the In the plasma membrane of animal cells, Na<sup>+</sup> is the usual co-transported ion whose . The Cl<sup>-</sup>-HCO<sub>3</sub><sup>-</sup> exchanger is similar to the band 3 protein in the membrane of red An Asymmetric Distribution of Carrier Proteins in Epithelial Cells Underlies the **Sodium-coupled chloride transport by epithelial tissues** Biological membranes are composed of lipid, protein and carbohydrate that exist in a . For instance epithelial cells have a membrane surface that interacts with the . the transport process is coupled to the autophosphorylation of the transporter. .. Not all ion channels are gated such as is the case for certain K<sup>+</sup> and Cl

**Structure and Function of the Chloride Cell of Fundulus - jstor** Even though fatty acids can diffuse across the

plasma membrane, this occurs slowly. refers to which ion (Na<sup>+</sup>, K<sup>+</sup>, Ca<sup>++</sup>, or Cl<sup>-</sup>) is allowed to travel through the channel. Coupled transport is similar to facilitated diffusion in that it involves specific The transport of glucose across the apical plasma membrane of epithelial **NaCl Transport in Epithelia - Google Books Result** Cystic fibrosis transmembrane conductance regulator (CFTR) is a membrane protein and chloride channel in vertebrates that is encoded by the CFTR gene. **Diffusion and Transport Across Cell Membranes** Buy Chloride Transport Coupling in Biological Membranes and Epithelia on ? FREE SHIPPING on qualified orders. **Biological Membranes and Membrane Transport Mechanisms** none Find great deals for Chloride Transport Coupling in Biological Membranes and Epithelia by George A. Gerencser (1984, Hardcover). Shop with confidence on **Carrier Proteins and Active Membrane Transport - Molecular Biology** Active chloride transport in the in vitro opercular skin of a teleost (*Fundulus heteroclitus*), a gilllike Sodium coupled chloride transport by epithelial tissues. **Existence and nature of the chloride pump - ScienceDirect** Chloride Transport Coupling in Biological Membranes and Epithelia von George A. Gerencser beim - ISBN 10: 0444805222 - ISBN 13: **Cystic fibrosis transmembrane conductance regulator - Wikipedia** The plasma membrane contains proteins that specifically recognize and carry into the . The coupling of Cl<sup>-</sup> and HCO<sub>3</sub> movement is obligatory in the absence of chloride, . In intestinal epithelial cells, glucose and certain amino acids are **The coupled movements of sodium and chloride across the - NCBI** mechanism is hampered by the absence of a struc-. D.B. Whitehouse tural gene marker. Chloride Transport Coupling in Biological Membranes and. Epitheliu. **Chloride Transport Coupling in Biological Membranes and Epithelia** epithelia may involve electrically neutral, Na-coupled Cl entry across the contraluminal membrane and that the energy for these secretory processes is derived from the . cell even if the efficiency of energy transfer is relatively low. Martin and **Chloride ATPase Pumps in Epithelia - Springer** Electrochemical gradients and the membrane potential. Instead, the cell must bring in more glucose molecules via active transport. .. sodium ions down their gradient is coupled to the uphill transport of other substances by a shared carrier **The coupled movements of sodium and chloride across - NCBI - NIH** Recent studies on isolated opercular epithelia containing chloride cells have demonstrated models suggest that chloride transport occurs via a transcellular route. Seawater chloride Chloride transport coupling in biological membranes. **Chloride transport coupling in biological membranes and epithelia Summary of Membrane Transport** Oct 15, 2009 Abstract. Five widely documented mechanisms for chloride transport across biological membranes are known: anion-coupled antiport, Na<sup>+</sup> and **Active transport (article) Khan Academy** 1984, English, Book, Illustrated edition: Chloride transport coupling in biological membranes and epithelia / edited by George A. Gerencser. Get this edition **Epithelial Transport Physiology - Google Books Result** Seven mechanisms of Cl<sup>-</sup> transport across plasma membranes have been widely .. (Ed.), Chloride Transport Coupling in Biological Membranes and Epithelia, **Chloride transport coupling in biological membranes and epithelia** Electrogenic Cl<sup>-</sup> Transporters in Biological Membranes Chien W, Stevens CE (1972) Coupled active transport of Na and Cl across forestomach epithelium. **Advances in Comparative and Environmental Physiology: Electrogenic - Google Books Result** Chloride transport coupling in biological membranes and epithelia. Front Cover. George A. Gerencser. Elsevier, Jan 1, 1984 - Science - 451 pages.
