

Designers on Designers

This fascinating survey of the world's most prominent interior designers describes the mentors and influences that have inspired their work and offers advice on how to build a practice. Following the same format as the authors' critically acclaimed book, *Architects on Architects*, this collection of candid personal testimony imparts the emotion, inspiration, and challenge of interior design and vividly demonstrates the power of mentorship and the creativity it can unleash. Each of the 24 original essays, told in the designers' own words, is beautifully illustrated with full-color photographs, providing a visually stunning forum for comparison and learning. Full of spellbinding meetings with legendary figures, described by those most touched by their greatness, this amazing journey through the giants of interior design gives you intimate access to some of the most original and creative minds of our time. *Designers on Designers* provides a beautifully illustrated glimpse into the inspirations that guide the careers of today's greatest interior designers, including Vicente Wolf, Bunny Williams, Robert Couturier, Ashley and Allegra Hicks, and many more.
