

Dysphagia: Diagnosis and Management, 3e

Numerous health care specialists are involved in the management of swallowing disorders, including speech pathologists, occupational therapists, nurses, dietitians, gastroenterologists, neurologists, otolaryngologists, and radiologists. This unique and important book, now in its third edition, approaches management of the patient with a swallowing impairment from each of these perspectives, giving the reader a solid understanding of how each contributes to the total care of the patient.
