

The authors of this innovative book offer a comprehensive perspective on nursing intervention together with theory-driven guidelines for future study. They provide a clear explanation of the problems encountered in outcomes and intervention research and then proceed, via the Intervention Theory, to show how these studies can be undertaken reasonably and comprehensively.

Handbuch fur Tauchunfalle (German Edition), The Fundamentals of Landscape Architecture, Clinical Application of Respiratory Care, Manual of High Risk Pregnancy and Delivery 5th (fifth) edition Text Only, Histology of the Nervous System of Man and Vertebrates (History of Neuroscience, No 6) (2 Volume Set),
