

# Evaluation of Health Care Quality in Advanced Practice Nursing

Named a 2013 Doodys Core Title! This is a wonderful resource that fills a true gap in the literature. This is a topic that needs more exposure and more emphasis in the field of advanced practice nursing. The value of evaluation in healthcare quality will be seen in the outcomes of healthcare improvements. Score: 100, 5 Stars--Doodys Medical Reviews High-level evaluation skills reflecting national standards and benchmarks are becoming increasingly important in our changing health care climate. This is the only nursing textbook to lay the foundation for APNs to achieve the highest possible competency in conducting systematic and in-depth evaluations of all aspects of health care. Comprehensive in scope, it distills current best practice information from numerous sources to create a thorough and reliable resource for APN and DNP graduates. The text addresses both the theoretical basis of evaluation and its application as an integral part of contemporary practice. It provides an overview of evaluation science and critically examines the characteristics, sources, and quality of the nature of evidence. Several frameworks are described to provide the reader with different evaluation models, including those of economic evaluation. The text covers in detail the evaluation of organizations, systems, and standards for practice, including information systems and patient care technology, the redesign of health care in accordance with patient-family centered models, and the challenges of the current trend toward electronic medical records. Also addressed is the evaluation of populations and health care teams, including characteristics, risk factors, and determinants, as well as the emphasis on interdisciplinary collaborative health teams. Additionally, the text covers translating outcomes from evaluation into health care policy, and opportunities for

advocacy and leadership among APNs.  
Key Features: Provides comprehensive coverage of evaluation of patient, population, systems, health team, and health care information systems technology outcomes Presents best practices and evidence-based practices that stress use in practice Uses case studies to illustrate application of evaluation in each practice area Stresses the importance of clear terminology in evaluation and provides definitions of relevant terms
