

Perioperative Nursing, An Issue of Nursing Clinics, 1e (The Clinics: Nursing)

Although perioperative nursing is a specialized area of nursing practice, there is great need to develop resources and material for nurses in general to increase education in this area; thus, this issue is an important part of our Nursing Clinics series. Expert operating room nurses cover topics ranging from Operating Room Lasers to Managing Special Needs of the Pregnant Surgical Patient. In addition, the issue includes articles that focus on Preoperative Nursing Assessment, Positioning and Patient Safety.
