

Part of the Prentice Hall LPN/LVN-specific series. Looking at the practice of nursing from the LPN/LVN point of view, this streamlined but comprehensive text explains to students what they need to know and do in order to deliver safe and effective nursing care in a variety of settings and functions. It focuses on the information and essential skills that will help ensure clinical and NCLEX-PN test-taking success, as well as addresses the LPN/LVN scope of practice and relationship to the registered nurse. This package also includes the workbook, which provides abundant opportunities for students to preview, review, practice, and reinforce textbook material. A variety of question types stimulate students to think critically, practice documentation, engage in client teaching and apply what they have learned at different levels of difficulty.
