

Jutas complete textbook of medical surgical nursing is a comprehensive, evidence-based textbook written with the southern African nursing student in mind. The text meets the requirements of current nursing programmes and the proposed updates to the curriculum. The book covers all the systems in the human body with comprehensive information on the most important conditions that can affect these systems. Chapters provide an overview of the anatomy and physiology of each system and detail risk factors, nursing assessments and common findings. These include the collection of both subjective and objective data as well as management principles for each condition.
