

Learning from the Water: Fishing Tactics & Fly Designs for the Toughest Trout

90 fly patterns that will work east and west plus details on insects and the patterns developed to imitate them Photos by Bonnie and RenA Harrop, Toshi Karita, Rich Paini, Masa Katsumata Original artwork by RenA Harrop In a lifetime nearing seven decades, I have devoted the vast majority of my time probing the mysteries of legendary waters like the Yellowstone, Firehole, Madison, Snake, and the Henrys Fork. Numerous lesser known rivers and lakes have cooled my legs but not my enthusiasm as I roam this region with a constant spirit of anticipation and discovery. In a single lifetime, it would be impossible to fish all the water in and near the park, and a close relationship with even a handful is a significant accomplishment. --RenA Harrop, Learning from the Water RenA Harrop records lessons learned from years fishing the worlds toughest trout water. His home water, the Henrys Fork, is one of the most challenging spring creeks in the world, and over his lifetime fishing the Henrys Fork, he has developed legendary techniques and flies to meet the challenge. In Learning from the Water, RenA shares his wisdom on the importance of insect stages, the flies for a successful fly box, and how to plan and prepare for a trip to unfamiliar water. Chapters on midges, caddis, Flavs, Callibaetis, Tricos, PMDs, hoppers, beetles, aquatic wasps, and Baetis give solid inside information on each of these important insects as well as the patterns RenA uses to imitate them, patterns that inspire fly tiers the world over.
