

Professional Make-up (My every day experience Book 2)

This is the only self training course that after each detailed step is represented by the image. The face is your business card and it is very important to have healthy skin, clean and well defined. The value of such a course is over \$ 300, and if you don't begin to study and apply the steps right now from this guide, even you know that in a short time and you'll get money out of pocket to pay for make-up. Why pay for a make up instead of being paid? YES! with this guide you can even open your own business. Anita S, the author of this comprehensive guide has an experience of four years and after first year she opened her own salon. Now Anita lives from her work, so you can read something else and inevitably pay again, you can read this course and never pay again even be paid by tomorrow, or you can do nothing and then when you get in a makeup salon you will pay instead of being paid.
