Policy statements issued and endorsed by the AAP are designed to be quick reference for the AAP position on child health care issues. Updated for 2005, this comprehensive book and CD-ROM resource gives you easy access to important clinical and policy information. The book includes complete AAP clinical practice guidelines; current policy statements and clinical and technical reports. The CD-ROM builds on the content of the book by including full-text versions of all AAP policy statements and complete clinical practice guidelines including endorsed guidelines and policies.
