

The Insiders Guide To Stone House Building: Guidelines 5.0 Stonework Styles & Patterns

Build Your Own Stone House Without Making the Costly Mistakes that Most People Make! Learn from a Master Home Builder Who Has Built Hundreds of Stone Houses and Witnessed All the Expensive Mistakes Made that Could Have Been Avoided by Reading This Report! AVOID ALL THE MOST COMMON, COSTLY MISTAKES THE AMATEURS MAKE! Building a stone house is great, but it isn't as easy as it seems. Learn from a MASTER home-builder who has 20 years of experience and 100s of homes under his belt ALL the pitfalls and blunders that the first-time self-builders typically make! COMPREHENSIVE, STEP-BY-STEP GUIDE! Having this guide book in your hands is like having the author right by your side, every step of the way. You'll know exactly what to do and what NOT to do whether you're the builder, architect, the project manager, or you own the land and want to supervise the construction to make sure the job gets done right! PERFECT FOR SELF-BUILDERS AND PROFESSIONALS! Different sections of this report will be useful for different people, depending on what your role is in the house-building process. It's designed for easy-reading, skimming, and skipping to the parts YOU need to know about! EASY-TO-UNDERSTAND INSTRUCTIONS! The author demystifies the stone build process laying everything out on the table in clear terms that even a novice can follow. You'll know ahead of time what questions to ask, what suppliers to look for, and who to avoid at all costs! ACHIEVE YOUR DREAM HOME WITHOUT THE NIGHTMARE! Avoid catastrophes, regrets, wasted time/money, and lawsuits! No one should attempt a stone build especially a self-build project without these guidelines in their hands at all times! PRODUCT DESCRIPTION The author is eminently qualified to teach this subject. He writes, I have wanted to write

these guidelines for many years, during which I have been involved in virtually every aspect of the stone build industry including quarrying, cutting, dressing and building with a broad range of stone types, as well as sourcing, exporting and importing various stone products internationally. Whether you are a self-builder or a project manager, my hope is that the information collected in this guide will save you time, money, and heartache -- and help to ensure that the house you build is a dream come true. Starting at the very beginning, you'll discover how to decide which type of stone is right for your project. For example, stones can be deceptive at first. What might look like the right kind of stone but isn't could end up changing colours over time, even turning an ugly black! Your house would be ruined! Knowing the facts about geology which you'll learn in this guide will truly be a life-saver for the life span of your home! These guidelines will take you through each crucial stage of your grand design, from sourcing the best materials to getting the best job done for the best possible price. You won't go wrong when you have these guidelines to rely on. But you CAN go wrong if you DONT know this information.
